CHS Band Wins 1st In Contest

Canyon High School Eagle band marched its way to a first division in the University Interscholastic League marching contest Tuesday.

The band, 69 members strong, competed at 2:30 p.m. in the newly named Frank Kimbrough Memorial Stadium in Canyon.

This is the third consecutive year the high school band has received a I in marching.

Last year the Eagle bandsters also ranked a I in both concert and sightreading at the UIL contest in the spring, thus receiving the UIL Sweepstakes award for the year.

In April the band was named the Class AAA Outstanding Marching Band at the Greater Southwest Music Festival, and won a first in concert and sight-reading at the festival.

J.W. King is band director in his second year in Canyon. Some 30 bands participated in the annual contest Tuesday, with Dumas and Canyon the only AAA schools receiving a I division. Tulsa and Perryton bands placed a II.

The Canyon band marched for seven minutes and played the following music while on the field: "Garland Entry March", "Iowa Band Land March", "Hostrauser's March", "When Johnny Comes Marching Home March", "Fandango" and Barnum and Bailey's Favorite March.

Mrs. B.B. Kendrick, left, gives Mrs. Durwood Henderson a preview of frights to come. Mrs. Kendrick will be the witch at Saturday night's Halloween Carnival on the courthouse square.

In Kansas

Buffaloes Eye Shockers

The West Texas State Buffaloes will take to the road this week, journeying to Wichita, Kansas to do battle with the Wichita State Shockers. The Shockers, sporting a 2-4 record, have fallen far below the pre-season predictions. Head Buff Coach Gene Mayfield said, "They are really not a strong ball club. I think they are pretty comparable to us."

The Shockers, as do the Buffs, have an explosive ground gaining back in Randy Jackson. A native Texan,

Jackson has rushed 110 times for 418 yards and three touchdowns this season.

WTSU will carry a dismal 1-5 record with them to Kansas. "(Last week) we were grasping for straws on offense. We didn't run block, pass or catch well. Although the defense performed better than the offense we had some breakdowns there also," Mayfield said.

The playing surface at Wichita State is artificial turf, but Mayfield says, "I don't think it will hurt us. It

is not that hard to adjust to and we will get to workout on it Friday afternoon before we play on Saturday."

"Artificial turf is a relative thing. Our backs will get more traction on it, but so will the Wichita defense."

The Shockers took a 41-7 drubbing in the first game of the season at the hands of Texas A&M and then lost a squeaker to Arkansas State, a perennial small college powerhouse. Wichita captured their next two contests over Trinity and Southern Illinois, but Cincinnati and Louisville dumped them in the last two weeks.

Barring any injuries during the week, all the Buffaloes should be ready to play come Saturday. "Ed (Holwig) will have been out three weeks by Saturday and should get to play some," Mayfield said.

Will run basically from a power I, while defensively they will use the split six formation. "Their defense is different in alignment from Idaho, but they will still have eight men on the line," Mayfield said. "They have stunted all year and will probably do so against us."

In past weeks, the teams that have hurt the Buffs offensively the most have been teams that have stunted of-

Haunted House... Who's Afraid?

Haunted House opens tonight beginning the 1971 Halloween season.

The Canyon High School band will sponsor the scary happenings on the top floor of the old First National Bank at the corner of Fourth Avenue and 18th Street.

Eight rooms will be decorated with the worst ghosts and goblins ever to swoop down on Canyon for the annual spook day.

A mere 50 cents will be charged for each trip through the haunted house, and a concession stand will be provided nearby.

The house will open its squeaky doors at 6 p.m. tonight and will be closed to non-ghosts at 9 p.m. Friday night the old house will welcome brave guests after the ballgame, and on Saturday those who can stand the strain can again visit from 6 p.m. until midnight.

City Readies For I-27 By-Pass Route Hearing

BY MARGO WILLIAMS

City officials and business leaders began digging, sifting and compiling facts to be presented at a Nov. 5 highway commission hearing in Austin on the Canyon I-27 by-pass route.

The small group of interested leaders met Tuesday night to map out plans and techniques to be used for the presentation.

Canyon has strongly supported a western by-pass route while county commissioners and Virgil Henson, financial vice president at West Texas State University, have approved of an eastern route also recommended by the highway department.

At a public hearing last month, district engineer Charles Smith said the highway department selected route A, which runs southeast from Stuckey's north of Canyon to about 2½ miles south of Texas 217 and then connects with South Washington Road to Happy.

Cost of the eastern route would run about \$12,948,000. Western route cost would be an estimated \$15,782,000.

The western route, labeled route E, would leave the present U.S. 87-60 at Stuckey's and cut southwest to the western city limits of Canyon, then run southward and re-connect with the old U.S. 87 on to Happy.

Engineers cited cost and terrain as main factors to take the road east of Canyon. Canyon residents have voiced concern over the eastern route because of the amount of traffic it would eliminate from Canyon.

City commissioners voted early this month to support the western route after the city planning and zoning board and the chamber of commerce endorsed route E. Downtown Merchants also selected route E as their choice and petitions were circulated in support of the western route.

Smith told Mayor Manly Bryan the highway commission hearing will be Friday, Nov. 5, in Austin if commissioners have enough time to review all the September public hearing proceedings.

Batenhorst Signs For Commissioner

Raymond Batenhorst, 57, longtime stock farmer in the Umberger community, has signed up as a Democratic candidate for Randall County commissioner in Precinct 3.

Batenhorst presented a check and signed the necessary papers Tuesday afternoon with Virginia Cotton, Democratic county secretary, and Marion Bruse, county chairman.

The candidate said he is interested in the government of Randall County and decided

to run when Glenn Dowlen, present commissioner in the precinct, announced he would not seek another term. Dowlen will complete 22 years in the county capacity next year.

Batenhorst has been a resident of Umberger for 54 years, moving there from Cedar Rapids, Nebraska when he was three.

He presently farms one mile east of Buffalo Lake. "I am interested in our taxes and everything else within the county," Batenhorst assured. "I will try to make the people a good public servant."

The candidate also explained he will turn the operation of his farm over to his oldest son John next year.

"That way I will have plenty of time for the county commission office," he stated.

Batenhorst has been a community leader for the German community and Randall County.

He served as school board trustee for 24 years, has been (See BATENHORST, page 4)

Game \$\$\$ Receipts Up

The receipts of the West Texas State University home football games have increased approximately 30 per cent per game since the arrival of head coach Gene Mayfield, according to Wayne Ray, Buff athletic business manager.

"Last year we were averaging less than \$19,000 per game in receipts. This year we have been taking in about \$25,000 per game," Ray commented.

He said that the receipts have ranged from a low of about \$22,000 in the Lamar game to a high of just over \$30,000 in the Tulsa clash.

"I think the people are anticipating a good season next year. The people are beginning to look upon West Texas as their school rather than that school in Canyon. So I don't feel, despite our showing this year, that our attendance will drop off next

year," Ray emphasized.

"You have to take into account how realistically the fans are going to approach this season. I think that they realize it is going to take a while for anyone to build a good team and a program here," Ray said.

Ray said that the additional cash coming in this year has helped to relieve some of the pressure for athletics to pay their own way. But we need to do a considerable amount more to completely support the program.

Several years ago, when Frank Kimbrough was the Buff coach, was the last time that the Buff athletic program completely supported itself. "Coach Kimbrough watched the purse strings pretty closely and the program could pay its own way then — in fact it built up a surplus. But a combination of inflation, and moving into big

time NCAA football put us in the red. The support from the public did not increase as did inflation and the added cost of big time football," Raysaid.

"The amount of money we pay each team that visits

Voter Registration Is Student Problem

By MARGO WILLIAMS
Voter registration for university students is becoming a thorn in several sides around the Randall County courthouse this week.

West Texas State University students are seeking some answers about how and where to register and vote. And county tax as-

essor-collector Audrey Bruse is trying to field the question

Gary Blanscet, Student Senate president, said Tuesday attempts to get student registration underway at the university is being met rather coolly by the tax office and the county clerk.

But a check with both offices produces several reasons for the hesitancy.

The question is who can register in Randall County. And the not-so-easy answer is a person who "intends to remain in the county indefinitely and call it their home."

And a student who has not registered their car in Randall County and who does not pay taxes in the county may be hard pressed to confirm he is making Randall County his permanent home.

Randall County Clerk LeRoy Hutton says that a count may hold that students are not residents if they have not paid taxes or do not have their cars registered in the county.

Mrs. Bruse, however, says (See VOTERS, page 4)

Final ghost dinner with bones and trantulas for the supper will be only one of the features at the CHS band Haunted House festivities beginning tonight. From left Mrs. Betty Johnson, Mrs. Pat Beth and Mrs. Sherrie Cates make final preparation on decorations for the Halloween activities that begin tonight at 6 o'clock.

For CHS Eagles

Demons Mean Foes

The next two weeks should tell the story for the Canyon Eagles, as they meet Dumas this week and Perryton the following week.

"Right now Dumas is the team to beat," said head Eagle mentor Ron Mills.

Mills said that he felt that Dumas had a stronger line this year as compared to last year, but "they don't have the talent in the backfield that they had last year. But the line is so strong that they can play ball control."

The Demons will utilize a wing T formation on offense, which is the same type formation that they have used for the past several years.

Defensively they will rely on a 4-4 and a 5-3 set up. "They have a real strong

team defensively. The teams that have scored against them have hurt them on the option," Mills said. "They have probably the strongest defensive team that we have met yet."

The only teams that the Demons have lost to this year have been AAAA schools. They whipped Amarillo Palo Duro earlier in the year and Palo Duro went on to defeat the defending New Mexico state champs, Hobbs. "I think this is an indication just how strong they really are," Mills said. "I feel like they just had a bad night when they lost to Hereford, although Hereford does have a strong team."

All the Eagles are healthy this week and no one, thus

far has suffered a major injury this year.

The two Demon guards average almost 215 pounds. Curtis Crouch a tackle is 6-4 and tips the scales at 235, while the other tackle, David Bonner is at 200.

"I wasn't disappointed with the performance of our backfield at Levelland last week. We just played too conservatively. We should have been throwing the ball. They were rushing eight men and we just should have thrown the ball," Mills recalled.

"But I was proud of the way the kids came back after we went behind in the game. We did, however, hurt ourselves with penalties and

FROM THE CANYON RIM

People in Canyon are beginning to ask about the wisdom of an area-wide police force such as the Metro Squad.

Theoretically the Metro Squad is supervised by a five-man board but in reality it is directed out of the Amarillo Police Department.

Investigative powers of the Metro Squad are overwhelming. Personal data on any citizen in the area is available to it for whatever use its members desire.

Frankly, I have a cold chill when I think of this organization with jurisdiction over people who had no voice in choosing its members.

Personally, I think the Metro Squad should be abolished immediately but I don't think this is likely to happen.

Its existence as far as Canyon is concerned could be an issue in city elections next spring. I recommend that the board of regents give West Texas State University participation a long hard look at its next meeting.

If the Metro Squad is to continue, then a move under way to expand the Metro Squad board is a good one. Plans call for putting some people outside police work on the board.

Traffic in marijuana and

drugs was advanced as the reason for establishing the Metro Squad. So far we haven't seen much, if any, more headway in combating this traffic than we saw before the squad was established.

Officers who should know say there seems to be no organized marijuana mob operating in the area. Grass is just plentiful — the counterpart of bathtub gin in the old days. I think our local sheriff's department and city police — answerable to the people over whom they have jurisdiction — can do a better job than anyone in combating grass traffic without the risks to individual rights fraught in any area-wide constabulary.

Even without the Metro Squad Randall County has at least nine law enforcement agencies. These include sheriff and police departments, WTSU security, highway patrol, FBI, Treasury Agents, border patrol, Texas Rangers, liquor control board and possibly others.

Do we need and can we afford another law enforcement agency?

The United Nations, conceived in deceit and delivered in infamy, for all practical purposes died the death

it deserved Monday night.

The organization, the charter for which was prepared in part by the notorious Alger Hiss, voted to seat Red China — a country with which it is still legally at war.

At the same time it voted to expell Taiwan with 14,000,000 people while the tiny schiekdom of Oman on the sun-baked coast of Arabia casts as big a vote in the general assembly as does the United States which foote 35 percent of the bill for the UN.

If men like Hiss had not been representing us we would not have been trapped into this vehicle of espionage in the first place.

Consider, if you will, individual states of the Soviet Union such as Belorussia cast individual votes in the general assembly. Following this line of reasoning — which the Soviets apparently had little trouble in selling to Hiss — every one of the 50 United States should be represented in the assembly.

Under the banner of the United Nations, truce negotiations still are going on in Korea leaving the UN still technically at war with Red China.

Actually, the United Nations has never been much more than a world forum for the communists. Only the United States sent troops to South Korea when it was invaded by Red North Korea. And the United Nations has not lifted a finger in the interests of justice in Vietnam.

Congressman Bob Price has suggested that we cut our support of the UN from 35 percent to 7 percent. I would go him much better.

Let's get out of the United Nations and get the United Nations out of the US.

The United Nations is dead at last. Let us without tears bury a corpse that should have been stillborn 26 years ago.

Farmers' Union To Choose Delegates

Members of the Randall-Potter County Farmers Union will meet at the union office, 1400 4th Ave., at 8 p.m. Tuesday to elect delegates to the December state convention in San Antonio and to make plans for a Christmas party.

Symphony Orchestra Presents Concerts

The West Texas State University Symphony Orchestra presents a series of concerts Wednesday and Thursday at high schools in Odessa and El Paso.

The group will perform at 10:45 a.m. Wednesday at Permian High School in Odessa. All string players from the Odessa public schools and the orchestras of both Odessa and Permian high schools are expected to attend said Dr. George Umberson, head of the WTSU music department.

In El Paso, the orchestra will perform Thursday at 8:30 a.m. at Burgess High School, 10:30 a.m. at Eastwood High School and 1:30 p.m. at Jefferson High School.

The 46-member orchestra is under the direction of Brian Walton, a member of the WTSU music faculty since 1967.

YRs Meet Tonight

Young Republicans at West Texas State University will meet tonight to elect officers at 6:30 o'clock in room 212 of the Student Activities Center.

Greg Harms, spokesman for the organization, said persons attending the meeting will discuss a resolution supporting State Representative Tom Christian's stand on the recent stock fraud scandal.

The resolution was adopted at the Young Republicans meeting last Thursday.

"Our members are deeply concerned about the welfare of our state — especially following much violations of the public trust as the recent stock fraud scandal, in which speaker of the House, Gus Mutscher, was allegedly involved," Harms said in a written statement.

He urged any voters attending WTSU, supporters or opponents of the resolution to attend the meeting tonight.

Christian will head a fund raising dinner for the organization Nov. 11 in the Holiday Inn West in Amarillo.

He served as assistant to the resident conductor of the Cincinnati (Ohio) Symphony Orchestra prior to coming to WTSU. He is principal cellist and assistant conductor of the Amarillo Symphony.

The program for the four concerts will include Beethoven's Overture to "Fidelio," Schubert's "Unfinished" Symphony No. 8 in B minor, Vivaldi's Violin Concerto "Autumn" from the program for the four concerts will include Beethoven's Overture to "Fidelio," Schubert's "Unfinished" Symphony No. 8 in B minor, Vivaldi's Violin Concerto "Autumn" from "The Seasons," and Tchaikowsky's Serenade for Strings in C Major.

Dr. Donald Todd, associate professor of music at WTSU, will be featured violin soloist on the Vivaldi selection.

On Nov. 6, the WTSU marching band will travel to Las Cruces, N.M. to perform at the West Texas State-New Mexico State football game.

The band, under the direction of Dr. Gary Garner, traditionally makes one trip a year to perform at WTSU out-of-town games.

Our World

BY ANN BROWN
On August 14, 1941, Franklin D. Roosevelt and Winston Churchill issued a document called the Atlantic Charter. Nearly four years later this document had evolved into a modern Tower of Babel.

On April 25, 1945, fifty nations gathered in San Francisco to begin the structure of this monument to the night and power of man. (God was not mentioned.) It was to be the ultimate in international brotherhood and one-worldism. (The same idea they had at Shinar.)

When the United Nations Charter was presented to the U.S. Senate for ratification on July 28, 1945, it passed by a vote of 89 to 2. Any loyal American who has ever read this insidious document has to believe the two senators who refused to ratify the U.N. Charter were the only ones who read it.

In 1948, construction was started in New York City for a permanent headquarters for the U.N. Our government officials agreed that American taxpayers, who never consented, would assume more than one third of the expenses of this Trojan Horse in our midst.

Roosevelt and Churchill

no doubt conceived the idea in good faith, but from its very inception, the organization known as the United Nations, which included China and the Soviet Union, has been a monument of hypocrisy.

Communism with its constant policy of sadism and butchery has sworn to conquer the free world. Yet communists are permitted by the free world to dominate this organization which is supposedly dedicated to making the world free.

That's exactly like asking a bear to guard the honey.

Membership in the U.N. was to be open to all "peace-loving" states. While she gobbled up one helpless neighbor after another, Russia has continued to dominate the U.N.

All the time America had to finance the expensive airlift to save West Berlin from starvation, and while the Berlin Wall went up to keep East Germans from fleeing their "peace-loving" masters from Russia, the U.N. has continued to bow and scrape to the Soviets.

While Russia constantly feeds the war machine that slaughters our sons in Vietnam, and tortures our prisoners of war, we continue supporting their representatives in the U.N.

While the U.N. has some 131 nations as voting members, the U.S. continues to agree to pay about one third of the expenses. Estimates of what we actually do pay for this Frankenstein's Monster run as high as 70% of the total expense.

ster run as high as 70% of the total expense.

Bob Price, one of the few statesmen among the greedy politicians in Washington, has introduced a bill making it unlawful for the U.S. to pay more than 7% (the figure consistent with our per capita representation) of the expenses for this fox that is devouring our vitals.

It seems that Americans have developed a perfect mania for minorities, or underdogs of any kind. There is a vast difference between being magnanimous and being foolish.

The underdogs at home and abroad have bitten the hands that feed them until our whole nation is infected with madness. Remember how Pittsburgh reacted when the Pirates won the World Series?

The mangling the U.S. suffered October 25 at the hands of the communists and their sympathizers should not have come as a surprise. While we have been starving ourselves to nurture the underdogs for nearly 20 years, they have grown to be top dogs.

Dare we hope our leaders will stand by our most loyal ally, Free China, have the courage to send these "top dogs" packing, and destroy this Trojan Horse before it destroys us?

Won't everyone who knows how to pray call on God to stop this Tower of Babel as He did the one on the plain of Shinar many centuries ago?

Gene Howe News

BY PAULINE HEFLEY
Congratulations to thirty of the ninth graders installed in the National Junior Honor Society recently. Out of the thirty, six were from the Gene Howe area. They are: Allen Beckley, Lucinda Curlee, Ray Higgs, Mark Jackson, Kim Johnson, and Marty Wallis. Incidentally, Mark Jackson is presently serving as vice-president of this Society Chapter (No. 301). Students, we are sure proud of each of you and keep up the good work.

Understand that one of the more stalwart families in the community is building a new chateau. We shall have to follow the progress on this project which is relatively close to the little white schoolhouse on the hill.

Happy Birthday to Becky Hawkins.

Well, that Ocie Towery has just returned from a fishing trip down at Lake Texoma. Going along for the relaxation with Ocie were Sam Hunter who lives at Lake Tanglewood, and Charlie Damier of Amarillo. Mr. T reports they didn't catch too many fish as they weren't runnin' yet — which means they weren't biting. (I guess?). Well, as things worked out, Mr. T really got out of a bit of work. The farmer is presently serving on the newly-formed Randall County Hospital board.

He and his wife Catherine were married in Cedar Rapids, Neb. Feb. 11, 1935. They have eight children and nine grandchildren.

Children include Mrs. Teresa Artho of Hereford, Mrs. Elaine Borman of Adrian, John, Judith Ann, Charles, Marian, Donna Kay, all of the home.

Ocie says the view is just beautiful — you can see Canyon and all the lights of the city. Says he is going to get a pair of binoculars so he can check up on what's going on at his home — rather ingenious, don't you think?

Say, that Cal Higgs and David Johnson both received a "War Eagle in football for their fine play in the game with LaPlata in Hereford. Ya'll just hide and watch these young boys develop into big, beautiful Canyon Eagles.

James and Myrna Lamb are simply effervescent over the arrival of their new grandbaby, James Lougene Lamb, III. Baby Snooks is being called "Jay" and weighed in at eight pounds, four ounces. Practically had to twist Myrna's arm to get this much information out of her — ha! Anyway, she says everybody is in a dilemma of happiness over the little tot. If you have not surmised, the mommie and daddy of "Jay" are James and Paige Lamb.

Happy Birthday to Ronnie Cates.

A cheery "Hello to Mrs. Henry Lee, mother of Jean Wallis, who is visiting with the Wallis family. Mrs. Lee resides in Briscoe, and will be recuperating from a recent hospital stay while here with Jean et al. Hope you are feeling better, Mrs. Lee, and welcome to the Gene Howe area.

"Jackson (Shocker back) is a good ball player. They think he is an excellent prospect. He is a strong runner, as is (Don) Gilley," Mayfield said.

Well, gotta sign off for now. Ya'll get me your news, 352-2089 or 376-9853. By the bye, me and Lovie are going to jet down to South America (Caracas, Venezuela to be exact) week after next. To say this old bod is getting excited would grossly understate the situation. I many times have to stop dwelling on it, or I soon begin to run distracted. I told a member of the church that we were going down to research the dens of iniquity for the brotherhood, and he practically collapsed laughing. But we shan't do such as that, just have a real good time — more on this later. Just thought I would prepare you for what's ahead.

they have not had adequate time to study the hearing proceedings by next week, the hearing will be held in December, Bryan explained.

He said he expects to find out definitely about the meeting this week.

Until then, all interested persons are urged to contact city manager George Loudner about help in preparing and compiling the needed information for the city's presentation.

"The Panhandle is notorious for not backing winning teams, but I feel like the fans are anticipating a good season next year and are standing behind Coach Mayfield. So I think we will probably have a good season financially next year," Ray concluded.

"I don't think anyone should count Levelland out of the race. They are tough and are going to beat lots of people before this year is over. They had a much better team than I thought they did," Mills said as he mulled over the thought.

"I think it will be very hard for Canyon to get through district play undefeated."

"We have only the law to go by and we feel we are following the law," Hutton declared.

"A person's right to vote is his priceless heritage and we must get it in the right ballot box so his vote will count."

WTSU-Tech Begin Econo-Business Data Bank

Establishment of a data bank of economic and business information about the Texas Panhandle is being undertaken jointly by West Texas State University and Texas Tech University.

A committee composed of three faculty members of each university has been formed to establish the bank.

Dr. Philip Gensler, head of the Department of Computer Information Systems at WTSU, said the committee has purchased the 1970 census tapes from the U.S. Bureau of the Census and other tapes from the U.S. Office of Business Economics. The OBE tapes give sources and amounts of income by county in Texas.

Tapes also have been secured from Dun & Bradstreet, national credit rating institution, Gensler said. These provide names, addresses and pertinent financial information about private businesses in Texas.

Texas Tech and West Texas State are currently engaged in writing programs to utilize the data obtained, Gensler said. The data bank will be available to faculty and students for research and to businesses, industry, chambers of commerce and other interested groups, Gensler said.

"If we let a person register and a year later it is thrown out because he registered in the wrong place, then we haven't done him justice," Hutton continued.

He continues saying that the state and national elections probably will not be contested concerning student votes, but local candidates may very well contest an election with student ballots.

Both Mrs. Bruse and Hutton will appear before the Student Senate at 4 p.m. Monday on the WT campus to discuss, explain and offer suggestions to students who want to register.

Hutton said there may be several ways to get students registered without going through the Randall County office.

"Student leaders might print up form letters to be sent to county tax assessor-collectors in the student's home county requesting registration applications," Hutton suggested.

And Mrs. Bruse said parents who presently live in Randall County can request voter registration applications for their children who are attending school in other towns. The parents or the student can fill out the application.

This is true of any parent. They can register their children in the county where the parents live and then the student can either vote absentee or go home for the election.

Student Senate and county officials will meet Monday, and both Hutton and Mrs. Bruse confirm they will be glad to go before the student body to explain the how and where of voter registration for students at West Texas State University.

Briscoe Fields Queries

BY MARGO WILLIAMS

Fielding questions from a group of 50 persons, Dolph Briscoe sounded like a politician rather than a rancher Tuesday while in Canyon.

Briscoe, here to address an agriculture class on the West Texas State University, was guest at a noon luncheon.

The announced Democratic gubernatorial candidate answered questions ranging from student disciplinary action to state water shortage and voter registration problems.

Briscoe was invited to the WT campus by Dr. Charles Smallwood, dean of the school of agriculture. The guest is chairman of the National Livestock and Meat Board, which met in Amarillo Tuesday.

Club Readies For Duo Tourney

Approximately 100 golfers will converge on Canyon Country Club Saturday and Sunday for its first annual partnership tourney, according to course pro, Bobby Westfall.

"We are expecting to have enough entrants to fill three and maybe four flights," Westfall said.

Cowsills Perform

The Cowsills, pop-rock group which emerged from family singalong to national acclaim, appears Thursday night at West Texas State University.

Performance time is 8 p.m. in the Activities Center ballroom. The program is sponsored by the WTSU Student Activities Council.

The group, which has appeared throughout the country and on national television, has several hit records, including "The Rain, the Park and Other Things," "We Can Fly," "Hair" and "The Prophecy of Daniel and John the Divine."

The group includes mother, Barbara Cowsill, and children, Bob, 22, Paul, 19, John, 15, and Susan, 12. Father Bud Cowsill manages the troupe.

Recently the Cowsills moved from their 22-room mansion in Newport, R.I., to a sprawling Spanish style house in Santa Monica, Calif., where they are now home-based.

Tickets are priced at \$3 for adults, \$2 for non-WTSU students. Tickets for WTSU students are priced at \$1.50 in advance, \$2 at the door. Tickets are on sale at Cooper & Melin in Amarillo and the WTSU Activities Center box office. They will also be sold at the door.

He urged students to get a voter registration campaign underway on the campus, by possibly using booths scattered throughout various buildings.

Briscoe, when asked his opinion on a House bill dealing with campus radicals, said he was unfamiliar with the bill but believes "there must be a way to have disciplinary action on a campus,

but individuals do have rights."

"That is a long time off and too far off to speculate who will be a candidate. But I have always supported the Democratic nominee in the past," he stressed.

He also said his interest in the cattle industry and subsequent pollution would not be in conflict if he were elected governor.

"Pollution from feed lots can be controlled and is being controlled now," he explained.

Briscoe said a possible answer to the state water shortage problem may be in transporting water from other states, such as Arkansas.

"California is the number one agriculture producing state, and Texas should be, he declared. "And California brings water into that state from other states."

"The Panhandle has proven that Texas can be the number one cattle producing state, and Texas can be the number one agriculture producing state also."

He closed his question and answer period saying "This is a time of change and challenge. Participation is a challenge and an opportunity."

"This is a new era of citizen involvement, and the individual is our source of strength."

WTSU Ex-Bandsmen Pick Up Songs, Marching Quickly

They may have been out of uniform, and the years may have slipped by leaving less hair and waning memories, but the spirit couldn't have been higher.

And some 101 ex-bandsmen from West Texas State University showed the old Buff spirit Saturday when they made it back to WT for Homecoming.

A mere 85 at halftime, but they all marched with zest, played with gusto, and didn't miss a step as they performed for spectators at the

Buff Vandals match.

Dr. Gary Garner, band director at WT, said the idea to bring back alumni bandsmen and women was initiated last summer, and the wheels began turning.

He sent out letters to all band members he could locate explaining the homecoming gathering. These band members knew where others were, and by early October the list had grown.

"I really didn't expect more than around 40 or 50 persons to show up for the homecom-

ing," Garner quipped. "In fact, I was going to be really excited just with that many."

But exes began pouring in Saturday morning at a reception in the band hall.

"The reception began at 10:30 and by 11:15 the place was packed," he recalled.

Garner began brief practicing for the oldtimers and after 30 minutes he realized they were ready to appear Saturday night.

"We went outside to practice marching, and I was amazed. They caught on and

we only practiced for 30 minutes."

Garner wrote a couple of arrangements especially for the "old" band, and aside from that the bandsmen themselves recalled the fight song.

"We had not planned to play anything but the two numbers, but as they were leaving the field, one of the cornet players started playing the fight song and the entire band joined in," Garner marveled.

Leading the band was Harris Brinson, as drum major. Brinson is high school band director in Pampa and served as drum major for the WT band in the early 60's.

Eight twirlers returned for the performance. They included Mrs. Lyndel Barry, whose husband is band director at Big Lake. Both the Barrys marched Saturday. Mrs. Beverly Milligan, who was head twirler in 1963-65, was also on hand. She presently teaches in Tascosa High School. Mrs. Mary Jo Fennell, head twirler after Mrs. Milligan, and her husband David appeared for the half-time show. Mrs. Gary Laramore of Canyon was on the field Saturday. Mrs. Laramore, whose husband is Canyon Junior High School band director, has the distinction of being a twirler for four years and never dropping a baton during a public performance.

Mrs. Linda Laird, elementary school teacher in Odessa, and her husband John, also were on hand for the show. Mrs. Lamoyne Garrison, elementary teacher in Pampa, was another twirler on at the

show, along with her husband Darrell, who is the assistant band director in Pampa.

Jan Coffman, the only single twirler to return, is an elementary music teacher in Hereford, and Mrs. Sandy Snelling of Fort Worth, also a former twirler with the WT band, appeared with the other twirlers.

Richard Bales, junior high band director in Dimmitt, was elected band alumni president for next year.

The alumni voted to hold the gathering yearly.

"We received cards and letters from lots of people who thought it was a great idea but who were unable to attend," Garner said. "We think it will continue to be successful."

Sgt. Lane Will Wrestle At Salonica Matches

Sgt. Larry Lane is headed for Greece, and the International Military Sports Council championship wrestling matches to be held Nov. 4-8 at Salonica.

The heavyweight is currently training at Quantico, Va., with the rest of the U.S. Armed Forces team. He will wrestle in the unlimited division.

Sgt. Lane's wife, Sharon, and their four-year-old daughter, Angela, are living with her parents, Mr. and Mrs. Roy Franklin, 605 Fifth Ave.

The team coach, First Sgt. Howard George, says the wrestling team is rich in talent and gained valuable experience recently in a lengthy workout with grapplers from the New York Athletic Club, which he called the top wrestling squad in the country.

Sgt. Lane, who weighs about 250 pounds, won conference and regional championships while wrestling for Colorado State College at Greeley. In the Army, he has won the Michigan Greco-Roman Championships, placed second in the 1971 Interservice Tournament, and placed third in the 1971 National AAU Greco-Roman Tournament.

Sgt. LARRY LANE

Greg Cates is mummified with the Canyon High School band decorations for the Halloween Haunted House. Part of the house will include eight rooms of horrifying ghosts and goblins, and Greg is taking a first look at just one of many spooky items running through the old First National Bank building. Haunted house begins at 6 p.m. tonight and runs through Saturday at midnight.

J.L. Matthews Recalls "Good Old Ball Days"

He chuckled and said, "We didn't wear pads or headgear during those days, in fact we had to buy the footballs out of our own pockets."

J.L. Matthews played end for the third football team that West Texas State University ever fielded. That was back in 1914.

He was, by several years, the oldest WTSU letterman present at the re-organizational meeting of the West Texas State University Buffalo "T" Club.

"I finally bought a helmet, but we didn't use any shoulder pads. I remember the coach would hold me out of the game to let the fullback play. Let's see — Hade, Bill Hade was his name."

Football around the beginning of the century was unlike the teams that fans go see today. "Clarendon had been established back in the '90's (1890's) and (Charles) Goodnight had financed a school in Goodnight. There

was Seth Ward in Plainview and there was that school that is there now, uh Wayland. There was a little college in Hereford but it went under a few years later," said Matthews as he recalled some of the teams that he had competed against. "Yeh, we even played the Amarillo High School teams."

"Football wasn't much at that time. You kinda had to play who you could. There was a fella in Amarillo named Black who had gone to school up north, Princeton or somewhere. He was the only one that could referee a game," recalled the aging former Buffalo.

Matthews talked faster as memories began coming back. "Terrell was our coach. He coached for two or three years, but he and all the others went off to war in '17 or '18."

Matthews said that football wasn't regarded very highly by the teachers at any college during the pre-World War I years. "Now get this down — it is a fact. The Coach had to beg the teachers for our grades, cause if you made below a C you got thrown out of football. If you missed one class to play a football game the teachers would fail you. So, the coach had to go beg for better grades."

Matthews never graduated from West Texas. He left school and moved to Dalhart where he ranched for 40 years. Later he moved to Canyon where he has made his home for the past 18 years.

"T" Club Reorganized At WTSU

The West Texas State University Buffalo "T" Club was reorganized at a luncheon Saturday.

Don Patterson of Amarillo was elected president; Joe Ed Forbus of Borger, vice president; Joe Fortenberry, vice president; Mitchell Jones, secretary and Weldon Trice secretary.

Board of directors elected were: Patterson, Trice, Milton Fitts of Tahoka; Forbus, Virgil Kelly, Denver City; Roy Winters, Canyon and Al McClellan, Amarillo. All were elected to two years terms.

But the board will meet at a later date and four of the

Buff Harriers Finish Second At Portales

West Texas State University's track team will compete Saturday morning in the Texas Tech Invitational at Lubbock, over a four-mile course.

The Buffalo squad of Coach Bob Kitchens have earlier defeated Tech for the championship of the Wayland Invitational and tied the Red Raiders in the West Texas Invitational.

Last week, in the Eastern New Mexico Invitational at Portales, the host ENMU harriers won the meet, but the Buffaloes edged Tech for second place.

In dual meets, the Buffaloes have downed Wayland in a meet at Amarillo and fallen to ENMU at Portales.

Junior Jim Hogan leads the Buffalo team. The 6-0, 160-pounder from Buffalo, N.Y. has a best time for four miles this fall of 19:52. He ran seventh in the Missouri Valley Conference meet last fall at Wichita and was the only sophomore to place among the top 10. His 19:52 came in the WTSU Invitational last Amarillo, Oct. 2.

Sexton, Hrcir Named Buff Players Of Week

Dewayne Sexton and Mike Hrcir were singled out as Players of the Week for their performance in the Buff-University of Idaho tilt by head coach Gene Mayfield at the Buff Booster Club meeting Monday night.

Mayfield said that despite the stunting that the Vandals did in the game, "Sexton did a fairly good job," while Hrcir intercepted a Vandal aerial on his own goal and took the ball back out to the 30 yard line before being brought down. He also recovered a fumble in that game.

As in past weeks Mayfield heaped praise on linebacker-guard Bill McKinney.

Mayfield also said that running back Billy Pritchett had been plagued all year with small "nagging injuries" and though none were serious he thought it best to keep him out in the second half against Idaho. During that game Pritchett suffered a bruised thigh just below his thigh pad. He is scheduled to play against the Shockers and will probably be at full

strength.

Mayfield told those gathered for the meeting that Walter Hibbler had played his usual good game. "Hibbler made a bunch of tackles," he said of the sophomore defensive end.

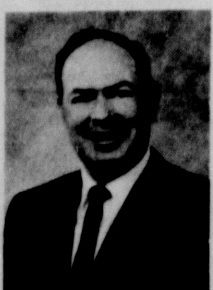

The next meeting of the Booster Club is set for 7:30 p.m. Monday in the Activities Center.

A reception in the church annex followed the wedding.

Miss Lola Ann Carter of Canyon and Miss Vicki Summers presided at the table which was covered with an antique Irish linen tablecloth made by Mrs. Maye Bond of Canyon. The three-tiered wedding cake was served with lime sherbet punch to carry out the bride's colors, green and white.

Upon proof of purchases of these items, the people who make the products will give UNICEF money for aiding the needy children in underdeveloped nations. The money will be used mainly for medicine and protection against disease. It is heartwarming to know these children want to share the Halloween activities with others less fortunate. Deadline for the project will be Nov. 15.

Congratulations to Mr. and Mrs. J.L. Irlbeck on their golden wedding anniversary. The Irlbecks have lived a full life, enjoying their family and understanding the dignity of work. They take time for fun and recreation too. They are truly young people celebrating their fiftieth anniversary.

WHAT IS HISTOPLASMOSIS?

It is a fungus infection of the lungs contracted by breathing contaminated dust. It is more likely to be found in rural areas than in urban, since this fungus affects animals also. It tends to be a comparatively mild, but chronic, sickness. Most cases offer no serious problem.

Its danger is that it can be confused with tuberculosis and some people having it are afraid to go to a physician fearing a tuberculosis diagnosis. Never have any fear when visiting a physician. The least he can do is to help you live longer and more comfortably.
